## Enhancing construction without disruption

Your projects are complex.  
Your technology doesn't have to be.

### ACCESS ANYWHERE, ANYTIME

**Cloud-based:** View and edit your plan from any device or location.

**Multiple collaborators:** Review live updates to board as users add or modify tags.

**Control access:** Set view and edit permissions at the user level.

### INTUITIVE, INTERACTIVE INTERFACE

**Master in minutes:** Purpose-built for tradespeople with user-friendly design.

**Conversation focused:** Optimized to run on large touchscreen displays to encourage in-room cooperation.

**Multiscreen, multitouch:** Supports linking up to three touchscreen boards together for immersive experience.

### REDUCE REPETITIVE WORK

**Import data:** Pull info from your master schedule to save time creating tags.

**Live progress reports:** Get real-time data on weekly work progress (PPC).

**Advanced analytics:** Export system data into Microsoft® Power BI for executive reporting.

## Nialli™ Visual Planner

Nialli Visual Planner helps construction crews stay on schedule and see the big picture.
